WELCOME TO SIMPATICO SAFETY TRAINING AND CONSULTANCY

This Student Handbook was created to provide you, the student, with a clear understanding of our policies and procedures. Please take the time to familiarise yourself with the content of the handbook. Should you have any questions please contact our administration team, or alternatively, if you are currently undertaking a course with us, discuss your concerns with your trainer/assessor.

ENROLMENT POLICY

To enrol in a course offered by Simpatico Safety Training and Consultancy, students must complete an [Enrolment Form](#) and submit to the RTO Administration team at Simpatico Safety Training and Consultancy. Student details will be entered into our Student Management System (SMS). [Click here for Privacy Policy](#).

Stage One: Pre-application - Enquiry Procedure

The initial contact with a student is one of an introductory nature. Specific qualifications delivered by the RTO may require the student to meet pre-requisite requirements for the course they wish to enrol in. This information will be made available to the student via the course information published on the website, in marketing material, and verbally in pre-enrolment discussions with an RTO Administrator.

During this stage and upon request, information will be provided to the prospective student including some, or all of, the following information:

- Current 'Training Program' or available training offer dates;
- 'Course flyer' and any other applicable course or enrolment information;
- 'Enrolment form' which includes the RTO's 'Code of Practice' which covers the Fees, Cancellation and Refund policy.

Stage Two: Application to Enrol

The RTO Administrator must receive the Course Enrolment Form and suitable identification prior to issuing a student with a confirmation of enrolment and/or any associated start up paperwork, pre-course assessment materials, etc.

If upon reviewing the identification, a potential student is identified as being under the age of eighteen (18), the RTO Administrator will email a Parental Consent Form to be completed by the student's carer or guardian and returned to the RTO before finalising the enrolment.

Depending on the payment option available, the applicant will be required to complete and return the following documentation to finalise their enrolment:

- Course Enrolment form;
- Photo identification;
- Credit Transfer (CT) or Recognition of Prior Learning (RPL) application (if relevant dependant on previous related study or work experience). Where the student requests to apply for RPL or CT, an application form will be sent to the student to complete and return with evidence of competency. The allocated Trainer/Assessor will discuss the completed RPL application in detail upon receipt;
- Unique Student Identifier number (USI) or permission form signed by the student to allow the RTO to legally create a USI on their behalf

Stage Three: Enrolment

The RTO Administrator will review the application to ensure all required information has been provided and that the details are correct. All enrolments are processed within 24 (twenty-four) hours through the Student Management System (Wisenet) and a welcome email and any other application information is issued to each student.

Once the RTO Administrator has received and processed the application form, the course declaration form and all necessary enrolment information, the trainer is sent an email notification outlining their new student's contact and enrolment details including all application notes provided by the RTO Administrator.

The RTO Administrator will update the student's Unique Student Identifier (USI) in the Student Management System once the number or permission form is received. No qualification will be issued to a student without this number.

For students applying for Recognition of Prior Learning (RPL) or Credit Transfer (CT), the RTO Administrator will verify copies of certification and supporting transcripts.

RECOGNITION OF PRIOR LEARNING (RPL) POLICY

The Simpatico Safety Training and Consultancy team acknowledge some people have skills and knowledge that enable them to gain a qualification without completing a schedule course. These skills and knowledge may have been gained through formal training, study, work and life experiences.

RPL is an assessment process that assesses the students formal and non-formal learning to determine the extent to which the student has achieved the required learning outcomes, competency outcomes, for partial or total completion of the qualification.

RPL recognises this prior knowledge and experience and measures it against the course in which the student is enrolled. A student possessing some of the skills and/or knowledge taught in the course may not need to complete all units.

Simpatico Safety Training and Consultancy uses robust assessment tools and benchmarking procedures to ensure reliability and validity across all RPL applicants.

The RPL and Credit Transfer process includes the following stages:

- Information provided either by accessing course information through website or flyers and or RTO representative;
- Initial support and counselling by RTO representative or trainer;
- Application for RPL – through approved formats provided by the RTO representative;
- Assessment – through remote and contact methods using various assessment collection methodology;
- Post-assessment guidance – including gap training or challenge testing, and/or;
- Certification.

A student has the right of appeal under our “[Complaints and Appeals Policy](#)”.
